

UNDER THEIR CHURCH - TECHNICAL RIDER

Contact:	Michael Erdreich	+49 1711182088	band@undertheirchurch.de
----------	------------------	----------------	--

This Rider is part of the performance contract. It's purpose is to technically realize the show of Under Their Church and make the process as smooth as possible. **If anything is unclear or any of the following points cannot be fulfilled, please contact us to work out a solution.**

1. General

1.1 Stage

We need a clean, level and safe stage with a drumriser measuring 3m x 2m.

The Background should be black or another dark color if possible.

We bring a backdrop (2m x 2m), therefore we need something to hang it from (like a horizontal pipe).

1.2 Personnel

We don't have any engineers so we need a FOH engineer and a light engineer who have to be familiar with the equipment of the location.

1.3 Rider

Under Their Church needs all PA-Riders and light plots for the venue at least three weeks before the show.

1.4 Stage Line-Up:

- Vocals: Nico Helmprecht
- Lead-Guitar: Dominik Kilian
- Rhythm Guitar: Michael Straehler
- Bass: Lorenz Kopp
- Drums: Michael Erdreich
- DJ: Thomas Heinrich

2. technical requirements

2.1 PA / light

The band needs a PA and lighting system that's appropriate for the room and free from interference. The mixing desk should at least have 12 XLR input channels (see input list for reference). All signals are coming from two 8-channel snakes out of the splitters of the in-ear-rack. We don't use any wireless connections and bring all microphones, guitar effects and cables, only the drum microphones and five microphone stands for the vocals have to be supplied by the venue. The DJ will bring his own Table (1,60m x 0,7m).

2.2 Monitoring

We bring all In-Ear-Equipment including mixer, cabling and analogue splitters ourselves and therefore don't need any monitoring engineer or stage wedges.

2.3 Input-Liste:

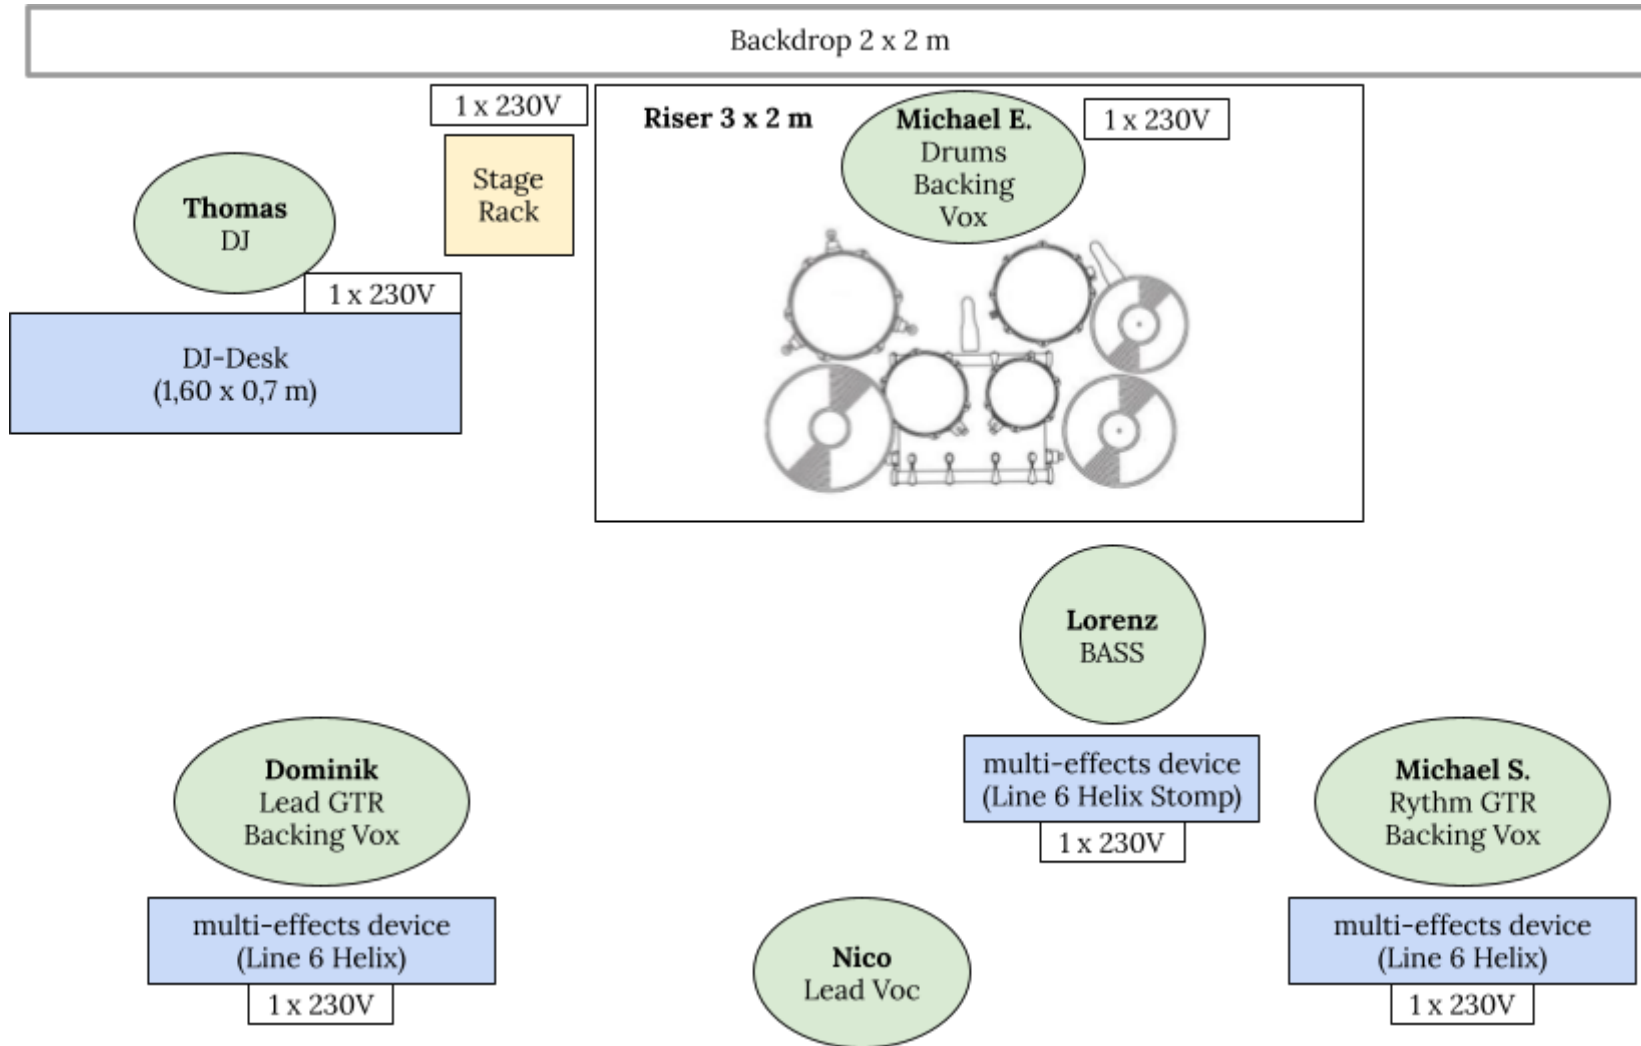

Snake 1		
channel	source	comment
1	bass (Lorenz)	output Line6 HX Stomp
2	lead guitar(Dominik)	output Line6 Helix
3	rhythm guitar (Michael S.)	output Line6 Helix
4	DJ left (Thomas)	
5	DJ right	
6	vocals lead (Nico)	SM58
7	vocals (Dominik)	
8	vocals (Michael S.)	

Snake 2		
channel	source	comment
1	vocals (Michael E.)	
2	vocals (Thomas)	
3	backing tracks left	
4	backing tracks right	

Additionally, all cables are labeled at the snake.

3. Others

3.1 Merchandise

A table (around 1,5m x 0,7m), if possible at a well visible location to sell CDs and other merchandise during and after the concert. If the table isn't in the same room as the stage or not visible by house staff it has to be guarded.
